## CORRUGATED SHIPPING CONTAINERS

### Regular Slotted Container (RSC)

- Highly efficient design
- The most common corrugated container style.

### Overlap Slotted Container (OSC)

- All flaps have the same length. The outer flaps overlap by one inch or more.
- The box is easily closed, usually with staples driven through the overlap area.

### Full Overlap Slotted Container (FOL)

- All flaps have the same length.
- Especially resistant to rough handling
- Stacked on its bottom panel, the overlapping flaps provide added cushioning.
- Stacked on its side, the extra thickness provides added stacking strength.

### Full Telescope Design Style Container (FTD)

- The two-piece corrugated box is made from two scored and slotted blanks.

### One Piece Folder (OPF)

One piece board provides a flat bottom, with flaps forming the sides and ends, and extensions of the side flaps meeting to form the top.

### Five Panel Folder (FPF)

- Single cut and scored piece features a fifth panel used as the closing flap.
- Several layers of combined board on each end provides stacking strength and protection

## INNER PACKAGING

### Die Cut Interiors

- Eliminate product damages
- Reduce consumer returns

### Partitions, Pads and Fillers

- Variety of sizes and board grades
- Helps to protect products
- Prevents shifting

## CORRUGATED PALLETS

- Environmentally friendly
- No nails to scratch floors
- Easily disposed of

## FULLY INTEGRATED SERVICES
